Sometimes this case is reversed and the longer priced horse of the two wins. Then the horse that should win, the

favorite, is either given an easy ride over the socalled overland route or is busily engaged in keeping possible contenders against the rail, which is nothing more or less than deliberate robbery.

Instructing the Jockey.

Another angle is this: Maybe an owner has a horse in his stable which he

enters in a certain race and with which

he knows he can pretty nearly get the

purse, but the purse being of small di-

mensions and this particular horse being in such form and the bookmakers being aware of the horse's form, naturally

make him a short price in the betting ring, which generally indicates that this horse has the best chance and ought to win. But if the owner hasn't much
